

## POLICIES AND STANDARDS

### WHAT WE OFFER

Giving your organization solid InfoSec foundations, INFRAAX's policies and standards services will:

- ▼ create, enhance and share your policies aligned with corporate culture, process, technologies and market regulation;
- ▼ revise your existing policies to maintain effectiveness in changing environments.

### THE ISSUES

Recognizing their importance in today's challenging environment, INFRAAX puts InfoSec policies and standards at the very foundation of your company's effective security program.

### HOW WE WORK

INFRAAX will collaborate closely with management to paint a clear picture of the culture of your organization when it comes to risk-taking and exposure. We will work with you to assess whether your organization's standards, guidelines and procedures regarding information assets are appropriate and met.

### RESULTS

Armed with well-developed policies and procedures, your organization will be able to better protect its essential resources and meet its business needs at all levels, thus ensuring that your business runs smoothly.

### WHERE DO STANDARDS FIT IN?

We'll review your operational documentation to make sure your organization is compliant with all the appropriate standards (ISO/IEC 13335, ISO/IEC 17799, ISO/IEC 27001 (formerly BS 7799-2), CobiT, appropriate Capability Maturity Model (CMM), appropriate NIST Special Publication, and Generally Accepted Information Security Principles (GAISP)).
